**Mobiliti Enterprise™**

A Complete Mobile Solution for Banking,  
Alerting and Payments

## Product

Consumer demand for mobile banking and payment services is growing exponentially. You need solutions from a trusted partner that can help you keep pace with the ever-evolving requirements of this high-growth market.

### **The Single-Source Enterprise Solution for Mobile Banking**

Mobile is the fastest-growing banking services channel, and many financial institutions are struggling to keep up with ever-expanding consumer demand for mobile services, as well as competitive pressures from alternative banking providers.

The convergence of online and mobile channels is driving the need for a seamless, optimised experience for banking and payments, no matter your customers' device or means of access. Stay on top of this evolving, dynamic marketplace – effectively and profitably – with Mobiliti Enterprise from Fiserv, the leading mobile technology for the financial industry. Only Fiserv offers the most complete, secure, integrated, customisable and cost-effective solution for financial institutions in this converged space.

### **Why Mobiliti Enterprise?**

#### **Flexibility**

Mobiliti Enterprise has been and can be integrated into your existing infrastructure regardless of your host, account processing, online and payment systems. It provides you the flexibility to choose how your projects

or phases are delivered, as well as resource options, such as dedicate, project, or local support teams. We can also tailor your Mobiliti Enterprise solution's architecture and development approach to meet your specific requirements and partner with you to deliver projects, proof of concepts and prototypes unique to your financial institution.

#### **Control**

Maintain ownership and control over the user experience and functionality with Mobiliti Enterprise, a fully configurable, carrier-independent, financial institution-centric solution. Whether you need just one component of the solution, such as alerts; an entire package solution; or a more complex customised approach, Fiserv can deliver the options you choose – including whether to host the solution on premise or use our Tier III, PCI-DSS, fully redundant, compliant data centres.

### **Beyond Software**

From tailored adoption market services to “future-proofing” security that meets evolving customer and regulatory requirements and payments consulting that helps you optimally position your organisation for the future of mobile payments, Fiserv helps position your organisation not just where the market is, but where it’s going to be.

### **Market-Proven**

Since 2002, Mobiliti Enterprise has been the fastest-selling mobile channel solution and the preferred solution for more than 1,600 financial institutions, including a number of Top 100 banks and credit unions. Fiserv mobile solutions have been operating in Fortune 500 banks since 2002 and are highly ranked by industry analysts. Fiserv received Best-in-Class achievements in all four categories of the CEB TowerGroup Mobile Banking Solutions Technology Analysis, December 2013.

### **The Lowest Risk**

Purchase with confidence from Fiserv. Our mobile solutions are backed by the most comprehensive and experienced product management team in the industry, offering guidance, implementation support and functionality customised to meet users’ needs as your mobile strategy changes over time.

### **Safe and Secure**

Rest easy with the rigorous security standards in Mobiliti Enterprise, designed to complement your financial institution’s existing security infrastructure – from enrollment, data encryption and transaction auditing to reporting and regulatory compliance.

### **Extensive Capabilities**

Go beyond just the basics of balances, transfers and bill payment offered by other mobile solutions with the powerful suite of standard features in Mobiliti Enterprise, including alerts and notifications, customer care tools, service reporting and analytics and diagnostic tools.

### **Superb Consumer Experience**

Give your customers a complete, optimised mobile banking experience. Mobiliti Enterprise supports multiple access modes, including text (SMS), mobile browser and applications for tablet and smartphone, as well as its RenderRight engine, which ensures clear and consistent access across a broad range of devices and networks. Likewise, Mobiliti Enterprise allows your customers to enroll via their mobile device, in the branch, via the contact centre, or online.

### **Faster Payments**

Make fast, easy mobile payments a reality for your customers with the solution's integrated mobile payments platform. From live bill presentment and payments to peer-to-peer transactions, Fiserv provides market-leading solutions that enable your organisation to offer true mobile payments, faster.

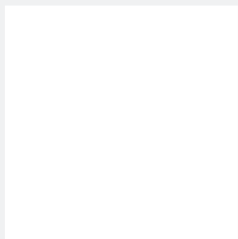

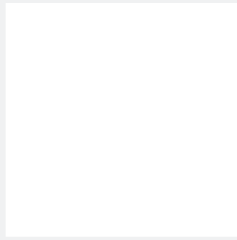

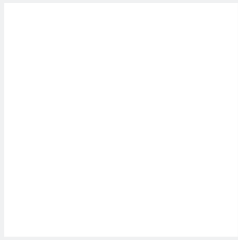

### **We Understand Banking**

At Fiserv, we know electronic banking and payments. As a proven and reliable leader in financial services technology, we're the right partner to provide the right mobile banking and payments solution on your terms.
