Product

The demand for anytime, anywhere business banking is growing exponentially. It is more important than ever to offer a solution from a trusted partner to move you to the head of the mobile business banking pack.

The convergence of the online and mobile channels is driving the need for a seamless, optimized experience for business banking and payments. Stay on top of this evolving, dynamic marketplace—effectively and profitably—with Mobiliti Business from Fiserv. Only Fiserv—a leader in mobile banking solutions—offers the most complete, secure, integrated and cost-effective solution for financial institutions in this converged space.

Designed after extensive research about business banking, Mobiliti Business offers intuitive and user-friendly banking services presented with a next-generation look and feel. Mobiliti Business helps businesses manage their finances faster and more effectively than ever, and it provides another competitive advantage in the cash management market.

Mobiliti Business is a hosted offering that enables you to deploy a scalable solution backed by the proven and trusted capabilities of Fiserv. Offering a wide range of services, Mobiliti Business covers more than just basic mobile banking; the solution includes features such as remote deposit capture, bill pay, entitlements, approvals and more. With Mobiliti Business, your financial institution is positioned to win in the business banking arena.

The Advantages of Mobiliti Business

Easy Integration

Mobiliti Business is integrated into DNAweb from Fiserv, to deliver a turnkey solution with flexible branding options, which gets you up and running in the shortest amount of time possible. Reach channel profitability faster through the shared integration with Fiserv payment systems such as CheckFree® Small Business.

Extensive Capabilities

Go beyond just the basics of balances, transfers and check images offered by other mobile solutions. Mobiliti Business provides a powerful suite of standard features, as well as bill pay, customer care tools and service reporting.

The Lowest Risk

Fiserv mobile solutions are backed by the most comprehensive and experienced team in the industry, offering guidance, implementation support and functionality customized to meet users' needs as your mobile strategy changes over time.

Safe and Secure

Rest easy with the rigorous security standards built into Mobiliti Business. Complementing your financial institution's existing security infrastructure, these features provide secure enrollment, data encryption and transaction auditing, as well as reporting and regulatory compliance.

Tailored User Experience

Give your users a complete, optimized mobile banking experience designed specifically for businesses via downloadable mobile apps for iOS and Android™ devices. Now you can give your business customers clear and consistent access across a broad range of devices and networks. Shared user credentials and entitlements across the online and mobile channels simplify user access and administration.

Beyond Software

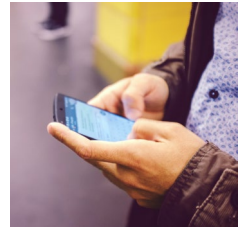

By including comprehensive customer support, adoption marketing services, technical assistance and more with our solutions, Fiserv can help you compete even more successfully in today's fast-changing financial environment. Our partnerships with leading research firms result in comprehensive studies that gather the most current data on banking, consumer and business trends, and information technology. With access to this intelligence, you can deliver what customers want now and anticipate future needs—ahead of your competition.
