

Mobiliti™ : Tablet

Enable a Rich User Experience via a New Access Channel

The number of consumers using tablets is increasing daily. It's now more important than ever to provide a tablet banking solution that meets the needs of your consumers. With Mobiliti: Tablet from Fiserv, you can deliver an advanced, low-cost, self-service channel to meet your growing consumer demand.

Blending the strengths of PC and mobile, tablet is becoming a formidable channel of growth for many financial institutions. Some mistake this technology for an offshoot of existing channels. However, tablet is a distinct and growing opportunity for financial institutions. Mobiliti: Tablet is a turnkey ASP solution offering an optimized banking experience specifically for tablet users. From making payments to checking balances, Mobiliti: Tablet offers a compelling interface and experience that drives increased consumer loyalty.

Designed for Your Consumers

Give consumers a new way to experience the convenience and power of the Mobiliti platform. Mobiliti: Tablet lets your financial institution interact with consumers using the latest access device of the post-PC era. Mobiliti: Tablet gives you the tools to compete successfully and cost-effectively for consumers who expect anytime, anywhere access to their finances with a specifically engineered tablet platform.

Mobiliti: Tablet is deployed through a secure, compliant and fully redundant Tier III, PCI-DSS data center that gets you up and running with the solution quickly. Once in place, Mobiliti: Tablet automatically and fully integrates into your Fiserv online banking platform. And as your markets evolve, you can count on our mobile banking solution to keep pace with users' needs through our revolutionary feature pack program.

Built for Your Business

Built on the proven Mobiliti platform, Mobiliti: Tablet has been designed from the ground up to be the best tablet experience available. Mobiliti: Tablet is backed by the most comprehensive product management team in the industry, offering guidance, implementation support and functionality customized to meet users' needs as your mobile strategy changes over time.

Mobiliti: Tablet goes beyond the basics of balances, transfers and bill payment with a powerful suite of standard features that also includes customer care and diagnostic tools. Rest easy with rigorous security standards deployed in Mobiliti: Tablet, designed to complement your financial institution's existing security infrastructure from enrollment to data encryption, all while maintaining complete control over your financial institution's data.

Fiserv is driving innovation in Payments, Processing Services, Risk & Compliance, Customer & Channel Management and Insights & Optimization. Our solutions help clients deliver financial services at the speed of life to enhance the way people live and work today. Visit fiserv.com and fiserv.com/speed to learn more.

Your Trusted Tablet Partner

Mobiliti is the fastest-selling mobile channel solution and the preferred solution for more than 2,400 financial institutions, including many Top 100 banks and credit unions. Enjoy all the benefits of proven, best-in-class technology that creates the competitive advantage you seek to optimize your market position. With Mobiliti: Tablet, reach channel profitability faster through the wide range of services offered in a fully integrated mobile payments platform. The mobile channel costs far less to operate than face-to-face, interactive voice response (IVR), and other banking channels, and Mobiliti: Tablet is the top choice to help your financial institution take full advantage of tablet opportunities in a changing marketplace.
