

MoneyPass®

Nationwide Surcharge-Free ATM Access

MoneyPass gives your cardholders what they want – secure, convenient access to more than 32,000 surcharge-free ATMs nationwide.

MoneyPass from Fiserv – one of the largest surcharge-free networks in the nation – is a powerful tool for financial institutions. While your cardholders save money at the ATM, you can earn incremental income, compete effectively with large ATM deployers, augment your acquisition and retention strategy, and reduce the expense of additional deployments.

Staying Connected

Surveys show that consumers want convenient and surcharge-free access to their money. With MoneyPass, cardholders have access to thousands of surcharge-free ATMs at banks and credit unions and in pharmacies, convenience stores, grocery stores, restaurants and wholesale clubs across the country.

MoneyPass can also benefit your financial institution by creating a strategic advantage. Do more business and boost your bottom line – start-up costs are low, fees are affordable and interchange rates are robust.

With MoneyPass, you no longer have to direct resources toward growing your ATM fleet – freeing up time and resources to focus on consumer satisfaction. MoneyPass makes connecting with

cardholders easier and more convenient than ever before.

The Currency of Convenience

With consumers still relying on cash, the opportunities for your financial institution to become a key part of accessing that cash are plentiful, particularly as a MoneyPass participant.

Your cardholders will never pay a surcharge fee for cash withdrawals at a MoneyPass ATM. And, by offering shared deposits, they can also enjoy the convenience of making surcharge-free deposits at thousands of MoneyPass ATMs across the country, creating a competitive edge and the potential for additional revenue. Deposit sharing can be a useful tool in retaining and growing accounts among segments that tend to travel or move out of your footprint, including:

- Students
- Military families
- Business travelers
- Snowbirds

Fiserv is driving innovation in Payments, Processing Services, Risk & Compliance, Customer & Channel Management and Insights & Optimization. Our solutions help clients deliver financial services at the speed of life to enhance the way people live and work today. Visit fiserv.com to learn more.

Finding a MoneyPass ATM

Whether using the website or app, consumers can easily locate a MoneyPass ATM right from their computer or mobile phone by entering a zip code or using their current location. You can even incorporate MoneyPass locations into an existing locator service on your website or in an app.

Key Benefits

- Convenient, surcharge-free access nationwide
- Simple, yet effective technology provides increased connectivity
- Retain existing cardholders, build brand loyalty and attract new consumers
- Improve operational efficiency, earn incremental income and compete effectively with large ATM deployers
