

# ISO 20022 – Transforming

## Financial Messaging

### Worldwide momentum

**1.4M+**  
ISO 20022  
messages  
exchanged daily

Fedwire® migration

(July 2025) impacts

**\$4.7T**

in daily transfers

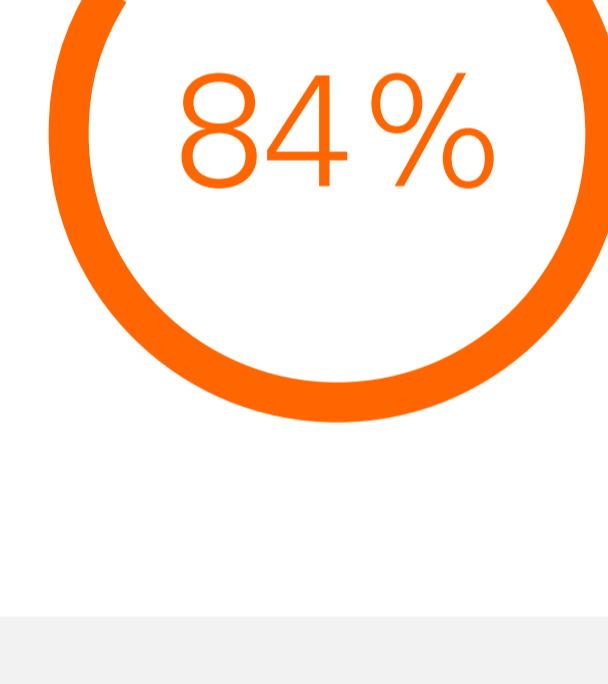

Used in **150+**  
sending and  
**220** receiving  
countries

**ISO 20022**  
is becoming the global  
standard for financial  
messaging, with major U.S.  
systems now onboard

### Smarter security

Up to 30%  
reduction in  
false positives  
for sanctions  
screening

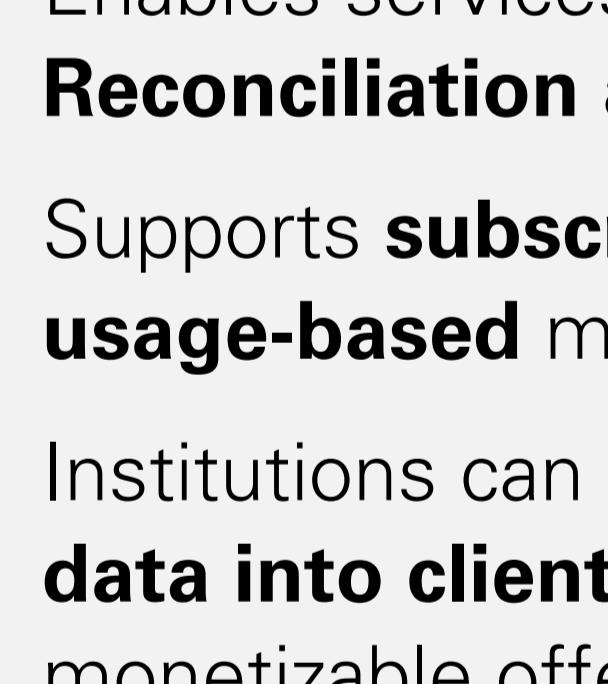

Enables real-time fraud  
detection and automated  
audit trails

Structured data improves  
compliance accuracy  
and reduces manual  
investigations

### Streamlined operations

Automates  
up to 84%  
of payment  
investigations

Enhances reconciliation,  
exception handling and  
liquidity forecasting

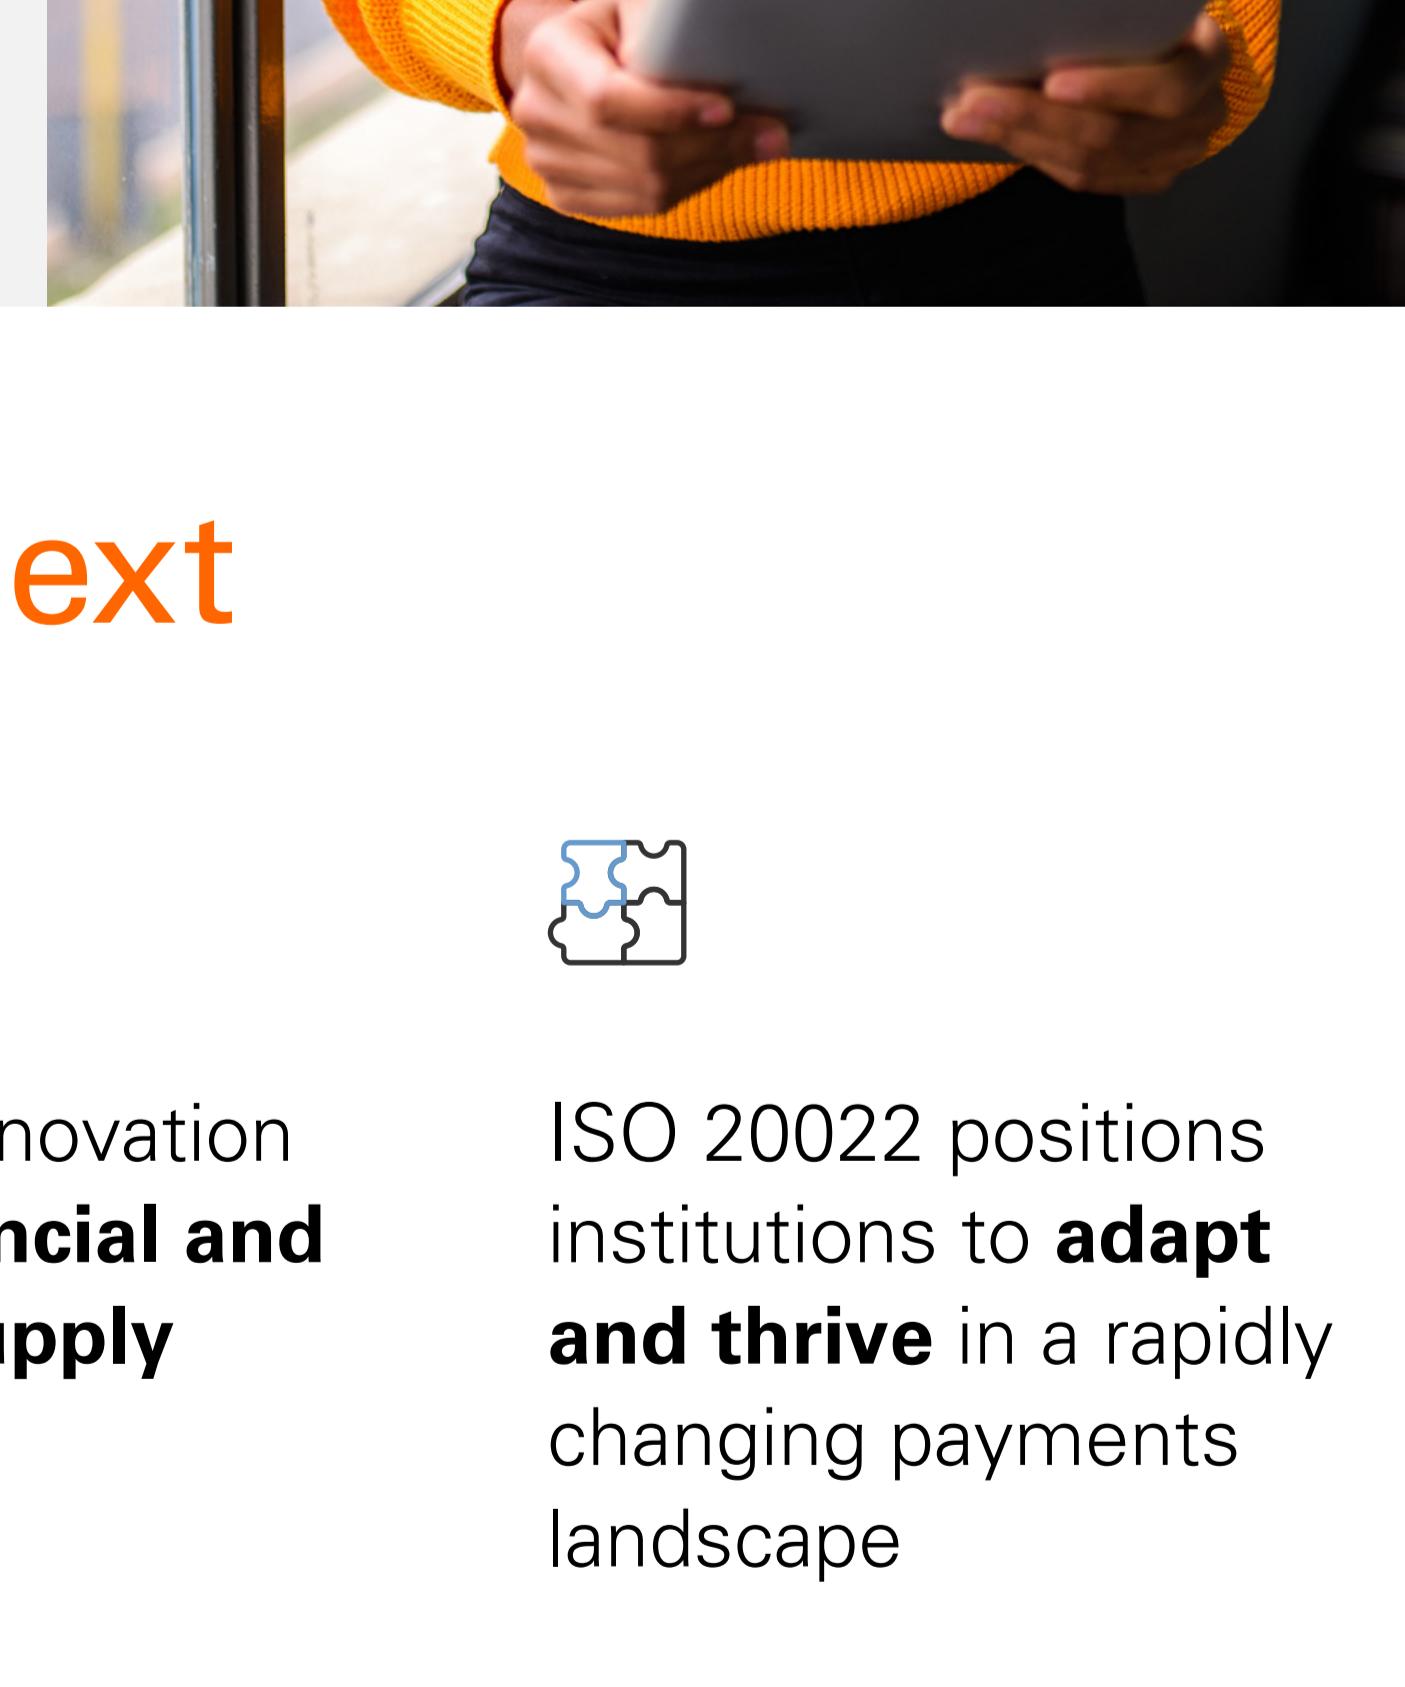

Rich data reduces friction  
and boosts productivity  
across internal processes

### New revenue streams

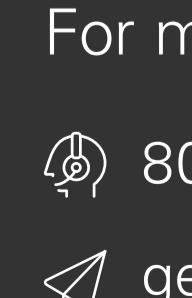

Enables services such as  
**Reconciliation as a Service**

Supports **subscription and  
usage-based** models

Institutions can turn **enriched  
data into client-facing** tools and  
monetizable offerings

### Ready for what's next

Full ISO adoption  
ensures compatibility  
with **instant  
payments** and  
evolving standards

Supports innovation  
across **financial and  
physical supply**  
chains

ISO 20022 positions  
institutions to **adapt  
and thrive** in a rapidly  
changing payments  
landscape
