

Hardware AdvantageSM

Empowering Financial Institutions
to Purchase Hardware Online,
Easily and Cost Effectively

Hardware Advantage from Fiserv is an online portal that helps financial institutions save time and money in procuring hardware needed for their day-to-day operations. The portal streamlines and simplifies the process by offering the right equipment at the right cost to meet our clients' business needs. Financial institutions save time and money finding workstations and laptops, monitors, check and document scanners, and much more.

Save Time

Our full, online catalog is specifically focused on the configuration and needs of your financial institution, so finding the right equipment and services is easy and quick. And as a single equipment source, Hardware Advantage saves the extra time needed to manage multiple suppliers.

Save Money

Through Hardware Advantage, you're able to leverage the buying power of Fiserv to procure hardware at the most competitive prices from the brands you trust, including Dell®, Cisco® and Fujitsu®.

Let Fiserv navigate industry-specific hardware challenges for you.

Designed for You

Fiserv has the expertise to advise you on the industry-specific hardware you need. We know your business and can ensure hardware compatibility for optimal performance with your core processing system.

Reduced Risk

The longer your institution continues to use hardware beyond its warranty date, the greater the chance you'll experience incompatibilities that put your business at risk. Increased maintenance costs, decreased security, non-compliance and compatibility issues are just a few reasons to regularly update or upgrade your hardware. Hardware Advantage makes it easier to keep your systems current and functioning properly.

Weathering Catastrophes

In the event of a natural disaster, securing your hardware quickly and proficiently is paramount. Because Fiserv manages the entire equipment procurement process for you, your institution can be up and running quickly, so you can continue to meet your business commitments.

Maximizing Limited Resources

Today, many institutions are faced with a reduction in their work force and are having a difficult time hiring qualified employees – including those needed to intelligently purchase needed IT equipment. With Hardware Advantage, you can get the job done quickly and affordably, even with fewer resources available.

Accommodating Growth

We are your best source to deliver end-to-end hardware needs for all your growth activity, including mergers and acquisitions. As the online portal expedites the procurement process, our Hardware Advantage consultants will be available to help ensure complete equipment compatibility.

Fiserv: Your Technology Partner

Your financial institution already relies on Fiserv as a trusted source for software and services, and you can also look to us for a complete solution and competitive pricing on the hardware you need. [Visit Hardware Advantage](#) to start saving time and money now.
