Offer Nationwide, Surcharge-Free  
ATM Access

---

## Consumers want easy access to their money, without fees. MoneyPass from Fiserv offers convenient access to nearly 40,00 surcharge-free ATMs nationwide.

MoneyPass, one of the largest surcharge-free networks in the nation, is a powerful tool for financial institutions. While your cardholders save money at the ATM, you can earn incremental income, compete effectively with large ATM deployers, augment your acquisition and retention strategy, and reduce the expense of additional deployments.

## Staying Connected

With MoneyPass, cardholders can access thousands of surcharge-free ATMs at banks, credit unions, pharmacies, convenience stores, grocery stores, restaurants and wholesale clubs.

MoneyPass also gives your financial institution a strategic advantage, enabling you to improve your bottom line with low start up costs, affordable fees and robust interchange rates.

You'll no longer have to direct resources toward growing your ATM fleet, freeing time and resources to focus on consumer satisfaction. MoneyPass makes connecting with cardholders easier and more convenient than ever before.

## The Currency of Convenience

As a MoneyPass participant, your financial institution can play a key role in helping consumers access cash.

Your cardholders will never pay a surcharge fee for cash withdrawals at a MoneyPass ATM. And MoneyPass enables deposit acceptance, allowing you to offer your cardholders the convenience of making surcharge-free deposits at thousands of MoneyPass ATMs, which creates the potential for additional revenue.

Deposit acceptance can be a useful tool in retaining and growing accounts among segments that tend to travel or move out of your footprint, including:

- Students
- Military Families
- Business Travelers
- Snowbirds

## Finding a MoneyPass ATM

Using a web browser on their computer or mobile phone, consumers can easily locate a MoneyPass ATM right from the [moneypass.com](http://moneypass.com) homepage. You can also incorporate MoneyPass locations into an existing locator service on your website or app.
