

 Solution

Commercial CenterSM: Corporate

Grow Your Commercial Client Base and Increase Customer Loyalty

Commercial Center: Corporate from Fiserv is a treasury management portal that leverages modular services, data transformation, and multiple delivery and access channels to create a responsive and flexible platform. The platform provides a comprehensive set of treasury features and is delivered in an intuitive manner to support the functions commercial clients require to do business.

The portal provides a streamlined, responsive, and adaptive user experience for payables and receivables, customizable reporting, alerts, automated delivery and layered security. Your organization and commercial clients will benefit from personalized dashboards with account information, single sign-on, public site access, marketing space, pending approvals widget and messaging capabilities.

Commercial Center: Corporate integrates with major financial institution account processing platforms to provide real-time and batch file reporting options that give commercial customers the information they need.

Open and Flexible Design

Commercial Center is an open, fully integrated and scalable banking solution featuring the user experience and sophistication your business customers desire.

Managing liquidity is easier with Commercial Center: Corporate. Real-time cash-management capabilities are designed for digital channels, have easy-to-use interfaces, and enable notification and authentication with smartphones and tablets. The single platform facilitates a unified user experience across multiple devices, while integrated security and analytics offer enhanced fraud prevention.

Support for Commercial Clients

Commercial Center: Corporate offers important features for your organization and commercial clients.

Dashboard – Offer business banking clients a virtual banking center with high-use features and a streamlined user experience, including single sign-on access, actionable items, account information and secure messages, and provides marketing space for financial institutions to cross-sell additional services.

Payments – Payment options include ACH, wire, real-time payments, bill payments and can be scheduled as recurring transactions with transaction approvals. Payment entries can be simplified through the creation and access to a payee list. Payment file import is supported in addition to manual entry. Integrated payables are also supported through the Commercial Center: Payables product.

Flexible reporting and account data export options – The solution integrates with enterprise resource planning (ERP) and accounting systems to provide file exports for sophisticated client segments.

Self-guided mapping tool – File onboarding with simple file mapping eliminates costs and minimizes the support required by back-office payment systems and check fraud applications.

Integrated security and analytics – Risk mitigation and audit simplification are provided by the

Commercial Center: Security layered approach of browser, fraud analytics and strong payment controls, aligned with Federal Financial Institutions Examination Council (FFIEC) guidance.

Account transfers – Real-time balance and one-to-one and one-to-many account transfers offer a financial institution's clients competitive liquidity management features, and are supported by automated account sweeps.

Integrated alerts and notifications – Automate delivery of time-sensitive information based on client preferences, including email or text notifications of transaction exceptions, approval requests and incoming payments received.

Market segments – Simple no-cost marketing option with branding opportunities for financial institutions to define market segments by vertical industries, geographic regions or other criteria.

Key Benefits:

- Virtualized banking center for commercial clients
- Flexible reporting and account data export options
- Streamlined payment and fraud protection
- Real-time balance verification
- Simplified payment entry
- Automated email or text notifications for time-sensitive information
- Cross-sell opportunities
- Proven and proactive FFIEC guidance-compatible security solutions
- Americans with Disabilities Act (ADA) compliant
