Account-to-account transfers to meet small business owners' needs

TransferNow Small Business Advantage enables you to enhance your financial institution's digital offerings to small business owners and strengthen relationships with these key account holders. This new solution offers small businesses the flexibility to manage their finances to improve their business operations.

Small business owners face complex challenges daily, whether in operations or managing their finances. TransferNow Small Business Advantage offers them a secure, easy account-to-account transfer solution to meet their ongoing needs.

## Speed matters

TransferNow Small Business Advantage offers instant\*, next-day and three-day transfers, offering speed when business owners need it most. Financial institutions have the opportunity to drive revenue through faster transactions by charging tiered fees for various transfer speeds.

## New features – just for small business owners

Small businesses naturally operate at higher transaction volumes than most consumers, which is why TransferNow Small Business Advantage offers higher transfer limits, configurable by your financial institution.

TransferNow Small Business Advantage supports the ability to move money between business accounts or, when needed, between business and personal accounts.

\*Instant transfer speed available soon for participating financial institutions.

Business owners operating franchises or multiple businesses can manage transfers for all their businesses from a single profile.

Finally, TransferNow Small Business Advantage offers unique account-level entitlements. Each employee granted access by the owner can have varying levels of permissions, including:

- Managing external transfers
- Accepting inbound transfers
- Adding and managing external accounts

## Risk management and account verification

TransferNow Small Business Advantage offers small business owners powerful risk management, whether during account verification or during account transfers. Our robust risk-scoring tools mitigate risk by monitoring transfers and handling all aspects of transaction processing, including exceptions, resubmissions and inquiries.
